BACKGROUND

With the growing number of families in Muslim Communities of North York, there is an urgent need for proper facilities and community centres to serve the young families as well as senior citizens living in Toronto. The current centre at 26 LePage court has been utilized beyond its capacity. In meeting this increasing demand, the Imdadul Islamic Jamaat (IJ) has responded by a new mandate to establish an Annex to the existing building. The board of overseers who has been elected for this purpose has initiated to proceed with the purchase of another property to serve the community.

IJ has consequently located a suitable property right next door, an industrial building at 30 LePage Court to be annexed to the current centre. The acquisition of this building addresses a long awaited facility to serve the growing need of the community in North York. While the site area is 30000 square feet, this one-storey, detached brick building provides an approximately 12000 square feet of additional building area with high ceilings and good lighting.
